

Quercetin - 500mg

500mg of pure quercetin per vegetable capsule for potent anti-histamine and anti-inflammatory actions.

Vegan

GMO Free

Gluten Free

Soy Free

Dairy Free

- 500mg of quercetin per vegetable capsule, naturally sourced from the flowers of the Sophora japonica plant
- Indicated for mast cell stabilization and anti-histamine action in order to manage and treat allergic and inflammatory responses such as hay fever and non-bacterial prostatitis
- 120 capsules per bottle

Allergic rhinitis, more commonly referred to as “hay fever”, is the most common form of allergy and presents with inflammation in the nose and respiratory airway after exposure to an airborne allergen. Individuals with allergic rhinitis may experience a runny or stuffy nose, sneezing, itchy throat, watery eyes or headaches.

Other forms of allergies may present with skin rashes, itchiness, redness or digestive concerns. Regardless of whether the immune system is reacting to dust, cats, freshly cut grass, pollen or certain foods, the body is producing an excessive immune response, which consists of many pro-inflammatory chemicals. One of these chemicals is known as histamine and it is the chemical

often responsible for the uncomfortable allergy symptoms.

Regardless of whether the immune system is reacting to dust, cats, freshly cut grass, pollen or certain foods, the body is producing an excessive immune response, which consists of many pro-inflammatory chemicals. One of these chemicals is known as histamine and it is the chemical often responsible for the uncomfortable allergy symptoms.

Quercetin is a natural flavonoid compound that is most abundantly found in apples, onions, tea and berries. Clinically, quercetin is most well-known for its ability to stabilize mast cells, prevent histamine release, and prevent and manage allergic responses, including allergic rhinitis.

An additional benefit of quercetin is its cardioprotective nature through its ability to prevent the oxidation of LDL cholesterol. Finally, quercetin has also been shown to have gastroprotective, anti-cataract, anti-inflammatory and anti-viral effects. A combination of its immune modulating capabilities and these actions may explain why research has found that it can be effective in cases of chronic nonbacterial prostatitis.

Cyto·Matrix's Quercetin provides a high-dose of 500mg of pure quercetin in each vegetable capsule. Naturally sourced from the flowers of the Sophora japonica plant, Cyto·Matrix's Quercetin is a sound choice for mast cell stabilization and anti-histamine action in order to manage and treat allergic and inflammatory responses such as hay fever and non-bacterial prostatitis.

Each capsule contains

Quercetin	500mg
(flower bud, Styphnolobium japonicum)	

Non-Medicinal Ingredients

Capsule: hypromellose.

Recommended Use Claim

Provides antioxidants. Used in Herbal Medicine as a capillary protectant.

Directions of Use

Adults - Take 1 capsule, 1-2 times per day with meals or as directed by a healthcare professional.

Cautions and Warnings

Do not use if safety seal is broken. Consult a healthcare professional prior to use, especially if you are pregnant or breastfeeding.

Duration of Use

For use beyond 12 weeks, consult a healthcare professional.

Storage Conditions

Do not use if safety seal is broken.
